

# GA 400 Auto-Chemistry Analyzer

- Up to **4 reagents** can be added per test

Reagent	R1	R2	R3	R4
added after minutes	0	1.5	5	9

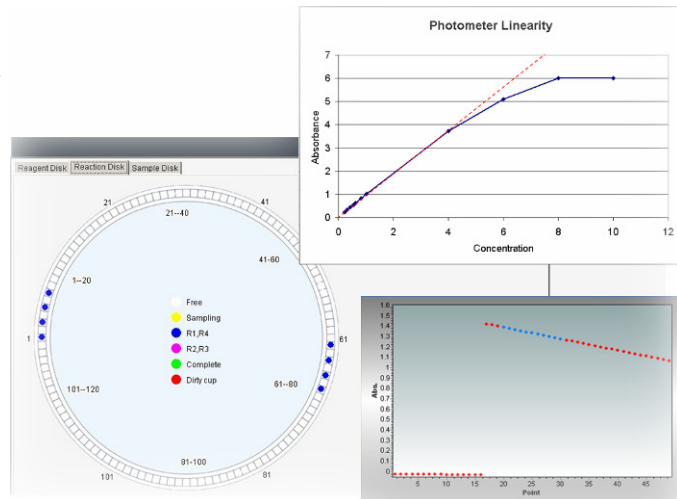

- Reaction time up to **15 minutes**
  - >50 parameters** on board
- Monoreagents placable in both reagent disks

- Superior photometer **linearity**

- On-line monitoring:**

reaction curves,  
analysis processes,  
liquid levels

- Consumables conform to Hitachi™ products

- >90 high quality Greiner reagents** – barcoded

- Reagents applicable for:

**GA240 – GA800**

**Excellent price/performance ratio**
